University of Massachusetts Club

CONSULS GENERAL

David Alward

Consul General of Canada to New England

David Alward has served as Canada’s Consul General to New England since 2015. Alward currently leads Boston-based, dynamic team that seeks to advance political and economic ties and stimulate trade and investment between Canada and New England. Earlier in his career, he held positions in the Canadian federal government, including serving as Minister of Agriculture, Fisheries and Aquaculture. In 2010, he became the 32nd Premier of New Brunswick where he remains an active member of the community.

Jonas Brunschwig

Head of Academic Relations Consulate of Switzerland

Jonas Brunschwig serves as Project Leader for Academic Relations for the Swiss Consulate. As a link between Swiss, Boston, and East Coast higher education networks, Brunschwig unites people across disciplines, from science to art, for novel collaborations and solutions. He is currently earning a master’s degree in MIT’s Department of Urban Studies and Planning. His work looks at industrial development in Sub-Saharan Africa through the lens of firms, governments, science technology diplomacy, and economic development.

Molly Douglas

Advisor for Science, Technology, and Innovation, Holland Innovation Network Consulate of the Kingdom of the Netherlands

Molly Douglas serves as Advisor for Science, Technology, and Innovation, with the Holland Innovation Network and Consulate of the Kingdom of the Netherlands. Prior to this, Molly worked on the design and launch of The Fletcher School’s Science Diplomacy Center (SDC) as its Assistant Director and with the Maine North Atlantic Development Office (MENADO) on Arctic opportunities. Molly earned a Masters in Global Business Innovation and Environment and Resource Policy from The Fletcher School of Law and Diplomacy.

3rd 2019 Boston Science Diplomacy Dissertation Enhancement Workshop Organizers

October 10 – 11, 2019

University of Massachusetts Club

Mart Duitemeijer

Attaché for Innovation, Technology & Science, Holland Innovation Network Consulate of the Kingdom of the Netherlands

Mart Duitemeijer currently serves as Attaché for Innovation, Technology & Science with the Holland Innovation Network in Boston. Duitemeijer connects start-ups, companies and research institutions in the Netherlands with opportunities for innovation in Boston. He formerly held positions as Policy Officer in both Energy Market & Innovation and European & International Affairs in the Dutch Ministry of Economic Affairs and Climate Policy.

Alberto Fierro Garza

Consul General of Mexico

Consul General Fierro Garza plays an important role strengthening and promoting political, economic, commercial, cultural and scientific relations between New England and Mexico. Formerly, Fierro Garza was Minister of Culture and Education of the Mexican Embassy in the US and Executive Director of the Cultural Institute of Mexico. Consul Fierro has a degree in Sociology from the Universidad Iberoamericana where he later served as Director of the Department of Social Promotion. He also has a master's degree in Latin American History from Georgetown University.

Patricia Gruver

Research & Innovation Attaché, Quebec Government Office, Boston

Patricia Gruver is the Research & Innovation Attachée for the Québec Government Office in Boston. In this position, she serves as Life Sciences Specialist for the US and co-chair of the [Science & Technology Diplomatic Circle of Boston](#). Gruver formerly served as the Oceans Programme Lead and the Communications Lead in her position as the Senior Science & Innovation Officer for the British Government in the US. She has a graduate degree in public health and epidemiology from the University of Sydney in Australia.

October 10 – 11, 2019

University of Massachusetts Club

Lucius Lichte

Scientific Liaison Officer, Consulate General of the Federal Republic of Germany

Lucius Lichte serves as the Science Liaison at the German Consulate. In this role, Lichte engages cutting edge technology and ideas from the life sciences. He describes his work as seeking synergies between Boston and New England’s intellectual landscape and German innovation and research capabilities. A graduate of the University of Hohenheim, Lichte also has experience in teaching, banking, and university partnerships.

Torben Orla Nielson

Scientific Attaché, Innovation Centre Denmark - Boston

Torben Orla Nielsen serves as Science Attaché with the Innovation Centre Denmark in Boston. Prior to this Torben worked as Counsellor of Science and Innovation at the Innovation Centre Denmark in Seoul, Korea, as Head of Business Development with Scion DTU, and with Markedschef. Torben earned a Masters in Economics from Københavns Universitet.

Ronit Praver

Director of the UK Government’s Science and Innovation Network (SIN) for the Eastern USA

Ronit Praver serves as Director of the UK’s Innovation Network for the Eastern United States. Praver strengthens transatlantic connections between economic prosperity, science, and innovation. Praver’s work demonstrates how international collaboration can rise to complex challenges like climate change and food insecurity, especially when informed by scientific evidence. With degrees from The Fletcher School of Law and Diplomacy and the University of Melbourne, Praver has worked in a variety of international environments and has lead teams across the innovation, business development, scientific exchange, and communication fields.
